RAM Mounts General Dynamics XR-1 Dock

National Products announces its new RAM Systems mounting dock for the General Dynamics XR-1. Designed to integrate seamlessly with RAM's patented rubber ball and socket mounts, this new custom cradle can be put practically anywhere or attached to almost anything. Featuring an integrated lock and screen support system, this product provides all the ideal functions. Given that the General Dynamics XR-1 is designed for harsh use and industrial applications, RAM Mounting Systems is the perfect accessory.

TSSI Vehicle Seat Covers

Tactical & Survival Specialties Inc. (TSSI) presents the Tactical Vehicle Kit. This kit provides access to critical equipment while in a mobile combat environment. Designed as customizable seat cover available for the HUMMUV and popular law enforcement SUV's, pouches and panels are easily portable and interchangeable. Panels are available for assault as well as medical needs. Modular pouches sold separately for mission-specific needs.

For more information visit TSSI at www.tacsurv.com or call (540) 434-8974.

Response Technologies SafeBOX

Response Technologies announces its new SafeBOX portable security unit. SafeBOX is small enough to mount almost anywhere and large enough to protect some of your most valuable possessions. Since it's portable, you can mount the steel sleeve in your car, boat, RV, house, or office. Unlock from the sleeve and "SafeBOX" slides out to be a portable lock box. It can be open and locked until secured back into the steel sleeve again. By purchasing additional sleeves, your valuables can be secured in multiple locations.

Visit www.rtsafebox.com for more information.
