## The Wheels of Justice

### Protect-All Security Products, Inc.

Protect-All Security Products comes to us from New York City. They produce unique 360° digital police cameras which are placed within a vehicle's rearview mirror.

Protect-All Security's AV-360™ is a patented 360° digital video camera which gives police officers the advantage of viewing and recording activities inside and outside of a police vehicle from almost every conceivable perspective. With no loss of visibility, the AV-360 is less intrusive than other camera systems, as the cameras are confined to the vehicle rearview mirror.

The AV-360 is available in two designs. The "Overt" AV-360 comes standard with interior camera on/off switch, forward facing 3x zoom and internal microphone. There is a larger zoom available. The "Covert" AV-360 is an inconspicuous and ordinary looking rearview mirror

*RAM has recently come out with a new line of portable printer mounts.*

equipped with superior quality wide-angle cameras and internal microphone. The covert AV-360 is great for surveillance and undercover operations, and uses low enough voltage to operate in a parked car for 24 hours without draining the battery.

You can find their Web site at [www.protectallsecurity.com](http://www.protectallsecurity.com).

### RAM Mounting Systems

RAM Mounting Systems has just released a new line of portable printer mounts for vehicles. Features of the new printer mounts include an all plastic molded construction; a paper viewing window to easily check the roll's quantity for easy replacement (just loosen two thumb screws to access the paper roll); strain relief support for cables; AMPS hold pattern so it's compatible with all RAM mount components; the housing which completely covers the incoming paper to prevent dust, dirt or debris from entering the printer rollers; and caddy portion which has been added to the top so that users can store their pens, pencils, paper clips, glasses, etc.

Their full line of products can be viewed at [www.ram-mount.com](http://www.ram-mount.com).
