RAM Mounts for The Garmin nüvi® 5000

With mounts available that are perfect for cars, trucks and motorcycles, RAM is your best choice for Garmin nüvi® 5000. Able to connect to the nüvi® in seconds, RAM can get your GPS exactly where you want it so it's easy to read and use. Order a complete kit and an extra base of your choosing and transfer nüvi® 5000 with ease to another location. Simple design that will not block or interfere with any function of the Garmin nüvi® 5000.

New 2008 Ford F-Series 12" Under Dash Console

Havis-Shields Equipment Corp. introduces the New 2008 12" under dash vehicle specific console for Ford F-Series pick-up F-250, 350, 450 & 550. It is manufactured from laser cut steel to precisely fit with the OEM center console and the OEM 4x4 floor shifter (does not work with OEM manual floor shifter). This console is easily installed with no vehicle mounting kit or permanent modifications required. Included are filler plates (FP) and/or equipment brackets (EB) to completely enclose mounting area less internal mount options. It has 12" maximum depth near the center of the console. Recommended options include: cupholder, telescoping computer base, and the Questar® rooftop mounted light.

Mini Leak Detection Flashlight

Tracer Products has unveiled the super-compact Tracerline® LeakFinder™ OPTIMAX Jr™ — a cordless leak detection flashlight that reveals leaks in cramped areas inaccessible to larger lamps. It is just 7¼ inches (19cm) long, weighs only 5 ounces (140g), and is easy to carry in a pocket.

This powerful, low-cost flashlight makes all manufacturers' fluorescent dyes glow brightly so technicians can pinpoint each and every air conditioning and fluid leak in seconds. It provides over four hours of peak performance and has an inspection range of up to 6 feet.

The OPTIMAX Jr is powered by three AA batteries, which are included, and uses an LED bulb with a 100,000-hour life. The flashlight
